## top 10 wind sculptures of 2019 video review

May 26th, 2020 —creators of wind sculptures must study thermodynamics in much the same way a meteorologist would in order to predict and shape the most artistic ways to capture the various motions of the wind though much of the focus of a wind sculpture is on the artistic form and fluid way it moves it is easy to see how a balance can be struck between the two to create works of art which also create'
