~~june 7th, 2020 - therefore einstein proposed the theory of special relativity which boils down to this the laws of physics are the same in all inertial frames and the speed of light is the same for all observers whether you re in a broken down school bus a speeding train or some manner of futuristic rocket ship light moves at the same speed and the laws of physics remain constant"einstein s general relativity theory gravity as geometry~~

~~june 6th, 2020 – general relativity was einstein s theory of gravity published in 1915 which extended special relativity to take into account non inertial frames of reference areas that are accelerating with respect to each other general relativity takes the form of field equations describing the curvature of space time and the distribution of matter throughout space time'~~
